CURRICULUM

The American Creative Academy is a university preparatory school with a standard-based curriculum reflecting that reality. The resources, teaching approaches, varied assessments and other characteristics of program at ACA are embodied in a clearly articulated, full curriculum. This curriculum itself undergoes all alignment and revision necessary to keep it tight and vibrant. Teachers are encouraged to apply their particular flair and strengths to bring the curriculum to life. A standards and benchmarks curriculum is a tremendous vehicle for this. The result is a set of curricula that allow instruction to soar while achieving ACA's mission statement and fulfilling the needs of our students.

Added to this, ACA uses a battery of testing programs to inform learning and planning at our school. The school's testing program includes the Measures of Academic Progress (MAP) in grades 3-9, the Pre-Scholastic Aptitude Test (PSAT) in Grade10/11 and the Scholastic Aptitude Tests (SAT I) in Grade11/12. ACA recommends that all graduates take the SAT I, SAT II, international TOEFL (Test of English as a Foreign Language), Kuwait University Aptitude Tests and any other test required for University/College entrance before graduation. English is the language of instruction and Arabic and Islam are compulsory for Muslim Arabic students.

In total, the curriculum at ACA is demanding for both teachers and students. All bases are covered at a high level, but with an eye to having at ACA program that is energized and in line with strong expectations as well as best practice.

IB PROGRAM

Since 2008, the IBDP program has been offered on both campuses for motivated students with sound academic records. Students may elect to take the full diploma or to take IB subjects for certificates. In addition to taking six IB courses over a two year period, IB diploma candidates also take the Theory of Knowledge (TOK) class for one year, write a 4000 word extended essay between grades 11 and 12, and participate in Creativity, Action and Service (CAS) projects for 18 months of the program.

EXTRA CURRICULAR ACTIVITIES

Team sports (including volleyball, basketball and soccer) are offered for both girls and boys in under 14, junior and varsity levels. Through American Creativity Academy's membership in the Kuwait Schools Athletic Association (KSAA), students in high school and middle school are offered opportunities to interact with students of international schools in a variety of interscholastic athletic and academic activities.

Other activities include opportunities to participate in student government, academic games, and Model United Nations, touch football, badminton, track & field and forensics. The core curriculum is supplemented by activities made available each year and generated by faculty and student interest. Examples of clubs/activities offered include swimming, table tennis, photography, cartoon drawing, chess, cooking, and other teacher initiated activities.
